DESCRIPTION AND PURPOSE OF ITEM

This item provides a literal description of the work code proposed for the structure.

- 1/ This item is part of the Proposed Maintenance Repair Table work codes. The Central Bureau of Operations adds "Descriptions" to the table as needed to establish new work codes.

CODE AND SCREEN ENTRY INSTRUCTIONS

A forty-digit field, left justified.

The Central Bureau of Operations enters the description beginning with the first space available, using letters, numbers, symbols and punctuation, leaving unused spaces blank.

- 2/ See Item 530 for Work Codes, Descriptions, Unit Costs and Units of Measure for work items most often used. For additional Work Codes available, see the Proposed Maintenance Repair Table, screen 10 of the MMIS Update Menu.
